

Vinod Tiwari

Product Data Scientist – AI/ML

Noida, India | vinod.jrc@outlook.com | GitHub | LinkedIn

Professional Summary

Product-focused Data Scientist with 6+ years of experience applying statistics, machine learning, and software engineering to drive measurable business and product impact. Experienced in defining KPIs, designing experiments, building predictive models, and deploying ML systems at scale. Strong background in Generative AI, LLM-based analytics, and data pipelines, with a proven ability to translate complex data into actionable insights for cross-functional stakeholders.

Core Skills

Analytics & Statistics: Hypothesis Testing, Regression, Classification, A/B Testing, Metric Design, KPI Analysis

Machine Learning: Supervised & Unsupervised Learning, Deep Learning, NLP, Generative AI, RAG, Agentic AI

Programming: Python, SQL, PySpark

Data & Infrastructure: ETL Pipelines, Batch Inference, AWS, Docker, MLflow, Vector Databases

Visualization & Reporting: Matplotlib, Seaborn, Dashboards, Data Storytelling

Professional Experience

Deloitte USI — Data Scientist / AI Architect (Jun 2024 – Present)

- Partnered with product, engineering, and research teams to define success metrics and KPIs for AI-driven products.
- Designed and evaluated ML and LLM-based solutions using statistical analysis and experiment-driven validation.
- Built Graph RAG pipelines and multi-agent systems, measuring retrieval precision, latency, and downstream product impact.
- Conducted root-cause analysis and model performance debugging to improve accuracy and reliability in production.
- Presented analytical insights and model results to senior stakeholders, enabling data-informed decision-making.

Tata Consultancy Services — Data Scientist / AI Engineer (Jan 2019 – May 2024)

- Applied statistical modeling and machine learning techniques to demand forecasting, sentiment analysis, and vision AI use-cases.
- Designed regression and time-series models to support business planning and product strategy.
- Built scalable data pipelines and batch inference workflows, reducing processing time and improving data reliability.
- Collaborated with business teams to translate analytical findings into actionable recommendations.
- Led experimentation and evaluation of NLP and ML models to ensure measurable improvements over baselines.

Education

Bachelor of Technology (B.Tech) — Computer Science & Engineering

Uttar Pradesh Technical University (2014 – 2018)

Awards & Recognition

- TCS Golden Guru Gala Award (2021) for excellence in Machine Learning education.
- TCS Faculty Award (2021–2022) for Subject Matter Expertise in Data Science and AI.

Certifications

- Machine Learning — Stanford University (Andrew Ng)
- Remote Sensing & Deep Learning — ISRO
- Python Programming & Data Science — Udemy
